180DC VIDEO CASE COMPETITION

180dccasecompetition@gmail.com @180dc.casecomp 180dcapac.casecomp

Foreword Co-CEO

Dear Inspiring Participants,

Welcome to the **180DC Video Case Competition, High School Students!** We are delighted to have you join a platform where creativity, critical thinking, and social awareness come together. This competition invites you to transform your ideas into impactful videos that will be shared through social media, allowing your voices and solutions to reach a wider audience.

In this competition, you are challenged not only to develop thoughtful solutions to real-world issues, but also to communicate them in a powerful and engaging way. This competition will be your stage: a chance to tell stories, spark conversations, and inspire change beyond the screen. We believe that our generation is able to hold fresh perspectives that can shape a more innovative and responsible future.

This journey is about **learning, experimenting, and growing together.** You will navigate challenges, collaborate with your team, and turn ideas into messages that resonate with people. More than a competition, this is an opportunity to build confidence, creativity, and the courage to make an impact through digital platforms.

Good luck, and we look forward to watching your ideas come to life and reach audiences everywhere!

Best regards,

Shaffya Aisya Nugroho

Co-CEO of 180DC Case Competition 2026

About 180DC Video Case Competition

The 180DC Video Case Competition is a national-scale video-making competition organized by 180DC UGM, based on a specific case provided to participants. This year, the competition is targeted at high school students or equivalent levels. It carries the theme “Winning the Next Curve: Formulating Future-Ready Growth Strategies.” The competition prompts participants to engage in solving a real-world business case provided by a partner company. Participants are required to conduct in-depth research, identify core problems, and develop practical, data-driven strategic solutions.

These analyses and recommendations must be delivered through a concise, compelling, and professional video presentation that clearly communicates the participants ideas. The competition is designed to sharpen critical thinking skills while training participants to apply structured problem-solving in real industry contexts. Throughout the process, participants are encouraged to demonstrate their ability to analyze business challenges, think strategically, and creatively translate ideas into engaging narratives. Ultimately, the competition helps participants build career readiness and enhance their competitiveness on an international level.

Background Theme

"Winning the Next Curve: Formulating Future-Ready Growth Strategies"

In today's rapidly evolving business environment, companies are constantly faced with shifting market trends, technological disruptions, and changing consumer expectations. These dynamics require businesses to not only respond to change, but to anticipate it. Competitive advantage is no longer defined solely by current performance; instead, it is shaped by a company's ability to recognize emerging curves, adapt strategically, and position itself for long-term growth in an uncertain landscape. As industries become more complex, the challenge lies in formulating strategies that allow organizations to remain relevant, resilient, and competitive.

Through the theme "Winning the Next Curve: Formulating Future-Ready Growth Strategies" 180DC Video Case Competition 2026 invites participants to explore how businesses can design sustainable and forward-looking growth strategies amid continuous change. By analyzing real-world business cases, participants are encouraged to think critically about strategic decision-making, innovation, and long-term value creation. This competition aims to generate fresh perspectives and actionable insights that can support businesses in making better strategic decisions, while also equipping future business leaders with valuable skills to help achieve meaningful and sustainable growth.

General Rules

1. **Participants must be active high school students** enrolled in an institution within the national or Indonesian region whose status remains valid throughout the competition.
2. **Each team must consist of two to three students** who are permitted to come from different schools as inter-school teams are allowed.
3. Every participant is required to possess and submit a valid **Student Identity Card** during registration for mandatory identity verification.
4. Each student is **strictly prohibited from participating in more than one team** to avoid immediate disqualification of all associated teams.
5. **Team composition is fixed upon registration**, meaning no member replacements or substitutions are permitted for any reason once the form has been submitted.
6. **Participants must complete the registration process** and pay the designated registration fee as outlined in the Registration Guideline at section g.
7. **The competition consists of a Single Round** format where teams submit their work directly for final evaluation followed by the Awarding session.
8. **Each team is limited to one submission per deliverable**, and only the first submission recorded in the system will be judged if multiple files are uploaded.
9. **Submissions must not contain** any content related to ethnicity, religion, pornography, or political agendas.

General Rules

10 **English is established as the official and mandatory language** for all competition activities, documents, and communications.

11 **Only the designated Team Leader is permitted to join** the official coordination group to minimize communication clutter.

12 Any official updates or amendments regarding rule **changes would be communicated exclusively via our official Instagram account** and the coordination group.

13 **Participants must comply with all regulations**, as the committee reserves the right to take strict action including disqualification for any non-compliance.

14 **The Judges' decisions are final**, binding, and absolute, meaning they cannot be appealed or contested under any circumstances.

Competition Format

1. **Participants will be presented with a specific business case** study regarding a company's challenges, for which they are expected to formulate a comprehensive strategic solution.
2. **The specific case study materials would be distributed exclusively** through the official confirmation email after the team has successfully completed the registration process.
3. The final **video submission must comprehensively address the provided case study** by covering problem identification, detailed analysis, and the proposed solution clearly and concisely.
4. The **content must be delivered entirely in English** with clear speech, while the inclusion of subtitles is highly recommended to ensure accessibility.
5. **Participants are free to choose a creative format** for their video, such as a formal presentation, a documentary-style video, or a creative explainer.
6. While the use of AI for research or minor static assets is permissible, the use of **AI video generators like Sora or HeyGen** to create full-video content **is strictly prohibited**.
7. All visual footage used in the video must be either the team's personal original recording or verified royalty-free stock footage.
8. Any **non-personal materials** such as stock video, images, or music **must be properly cited** in the video credits or description to avoid copyright infringement.

Competition Format

9 Teams are required to **upload their final video submission to Instagram** Reels as the primary platform.

10 **Deadline** for the submission is on **Friday, April 3rd, 2026 at 23.59 WIB.**

11 The uploaded post must explicitly **include the designated official competition hashtags** and tag the official accounts as specified in the guidelines.

12 The specific access link for the **submission form will be distributed exclusively** within the participants' confirmation email group to ensure security and validity.

13 **The committee disclaims all liability for copyright** claims or disputes, meaning the video content remains the full and sole responsibility of the participants.

Submission Specifications & Penalties

1. The video duration must strictly adhere to **a range of 3-5 minutes** of time limits, as judges would penalize or cease evaluating submissions that exceed the allowed time.
2. Evaluation for videos **longer than seven minutes** would **reduce the team point** by 5 at every minute that passes after the 5 minute mark.
3. **Delay of the submission would be sanctioned** by reducing the point by 5 at every half an hour that passes after the deadline time.
